DYLAN R., TORONTO CANADA

I really love my Brazilian Hammock Combo because of its easy to assemble design. I love that this hammock is able to accomodate my height and weight without any concern. Most people look forward to jumping in their beds after a long day. But for me, it's my hammock that I like to ease into.

I love my dream chair. It's like you are floating on air. My favourite part is the umbrella because I can tan without the sun being in my face. I'm thinking about getting another one so my boyfriend and I can each have one.
