

CACCOON

JUST HANG YOUR NEST

CACOON

JUST HANG YOUR NEST

CACOON is the new hangout chillout space, the new concept for relaxation and simple fun. Designed for adults and children alike – it is, quite simply, a back to the nest adventure...

HEAVENLY NEST

It's your swing chair; your hammock; your hanging garden seat; It is whatever you want. At work, or in the office.

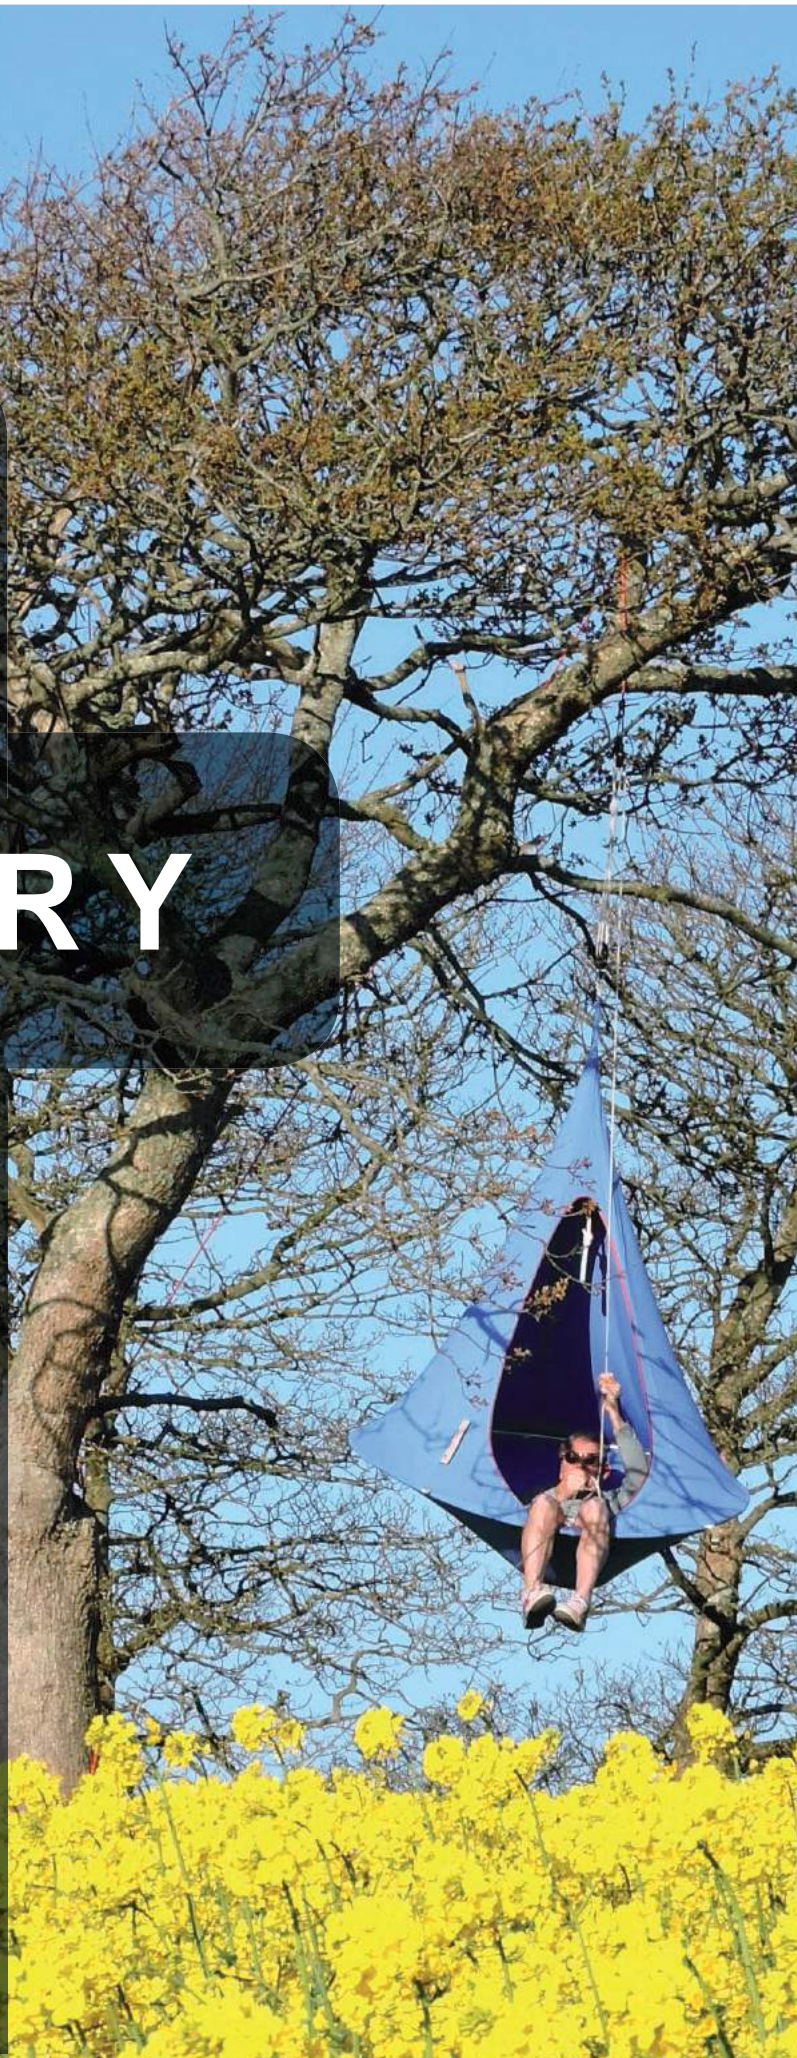

CACOON was designed by a team of professional sail makers and experts in fabric and textile technology for architectural structures. It was originally commissioned as a relaxation solution for the UK's Scarlet hotel to complement the coastal location and ecoaspirations of this luxury spa in Cornwall.

THE STORY

The inspiration

This natural new experience actually comes from nature itself. It's a concept inspired by the beautifully stitched together hanging nests of the weaver bird. The designers saw these amazing structures in Mexico and by the time their flight landed in London the Cocoon was born.

For this little bird it creates a safe bolthole in the jungle; for you it creates your own personal space. You're hidden away and sheltered, relaxed and relaxing, still aware of the sounds and sights around, but cocooned alone, or together, in your own private world

” I simply love it ! I spend many time reading my book and watching the world come and go with absolutely no idea that I am watching from my hideout under the tree ! ”

Nick

CACOON is one of the leisure industry's newest and most interesting innovations. It is set to become the must-have, hanging haven for grown-ups and growing up!

How we make the **CACOON** ?

As you'd expect, all our products are made to very exacting standards. We use top grade fabrics, developed for the high demands of the marine and camping industries. A mix of cotton and polyester help retain the soft feel of natural canvas while achieving the longevity of a technical fabric. Each Cacoon is treated for anti-mold, UV protection and water resistance.

ABOUT THE **CACOON**

” *When I'm traveling the world, I'm always taking my Cacoon with me. In July last year, I went in the desert and could not believe my eyes. I found a marvellous tree !* ”

Kathy

CACOON is safe and strong, simple yet quirky. It's small enough to carry, yet big enough to share. From wind and wet to sun and sea, its high quality, weatherproof fabric resists all the elements. It's been tested and hung in every type of environment – in the garden, on a hike, in the woods, by the coast, in the office, in sports and leisure centers, in bedrooms and dens, in hotels and adventure playgrounds – inside and out, just hanging out and giving people a lot of fun.

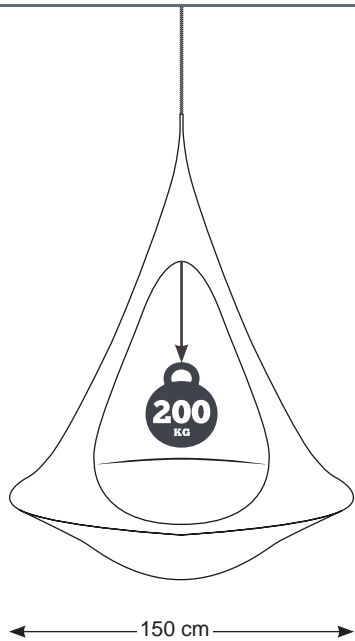

CACCOON

At Ø 1.5 m, Cacoon Single is our most popular size, inside or out – just perfect for a single adult to escape the stresses of the day. Picture yourself hanging out, totally relaxed and slowing the pace of life right down.

CACCOON SINGLE

But wait; do you have kids? Then you've got a fight on your hands. You'll never keep them out of it. Your Cacoon will quickly become their Cacoon... but hey, that's life. You might get a look-in now and again (or, you could buy two - how important is your time?).

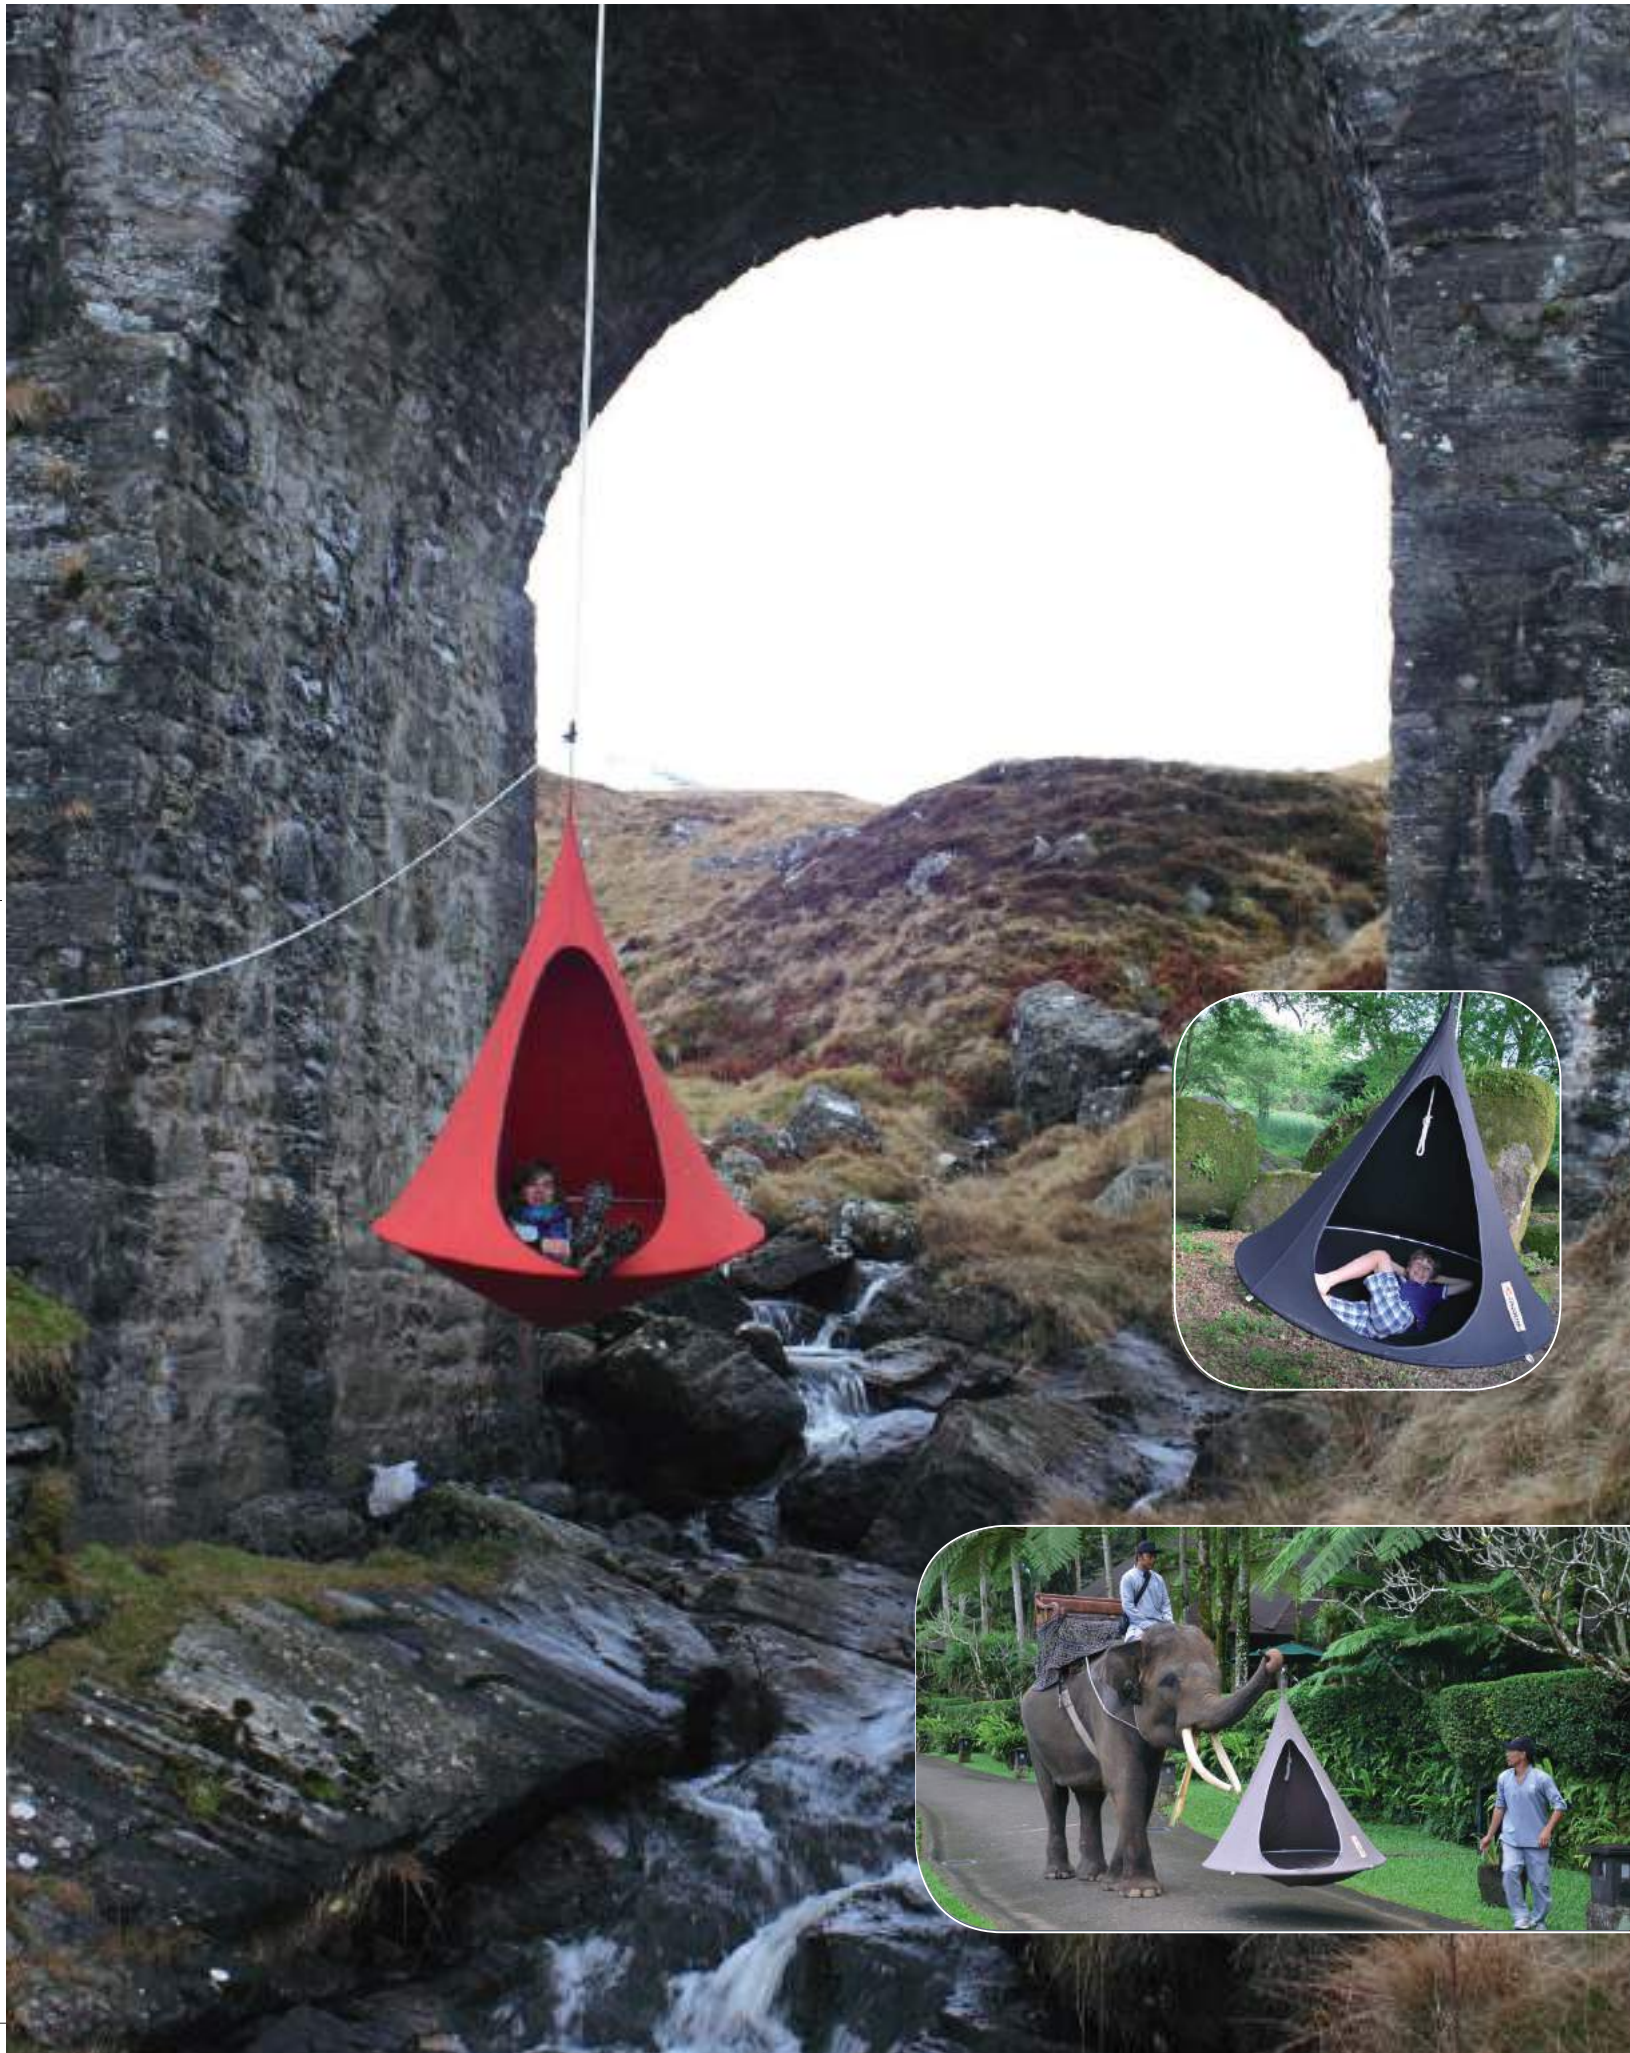

*CACOON Single
is big enough for one adult,
or a few kids to share.*

*Cacoon Single,
Leaf Green*

The **CACOON** SINGLE range:

SW1 • Natural white

SG2 • Leaf green

SM3 • Orange Mango

SB4 • Sky Blue

SR5 • Chili red

SY6 • Grey

ST7 • Taupe

SBL8 • Black (*)

SC9 • Camouflage (*)

SLB10 • Turquoise

SF11 • Fuchsia (*)

SA12 • Anthracite

(*) These colours are available until the end of stock

CACCOON

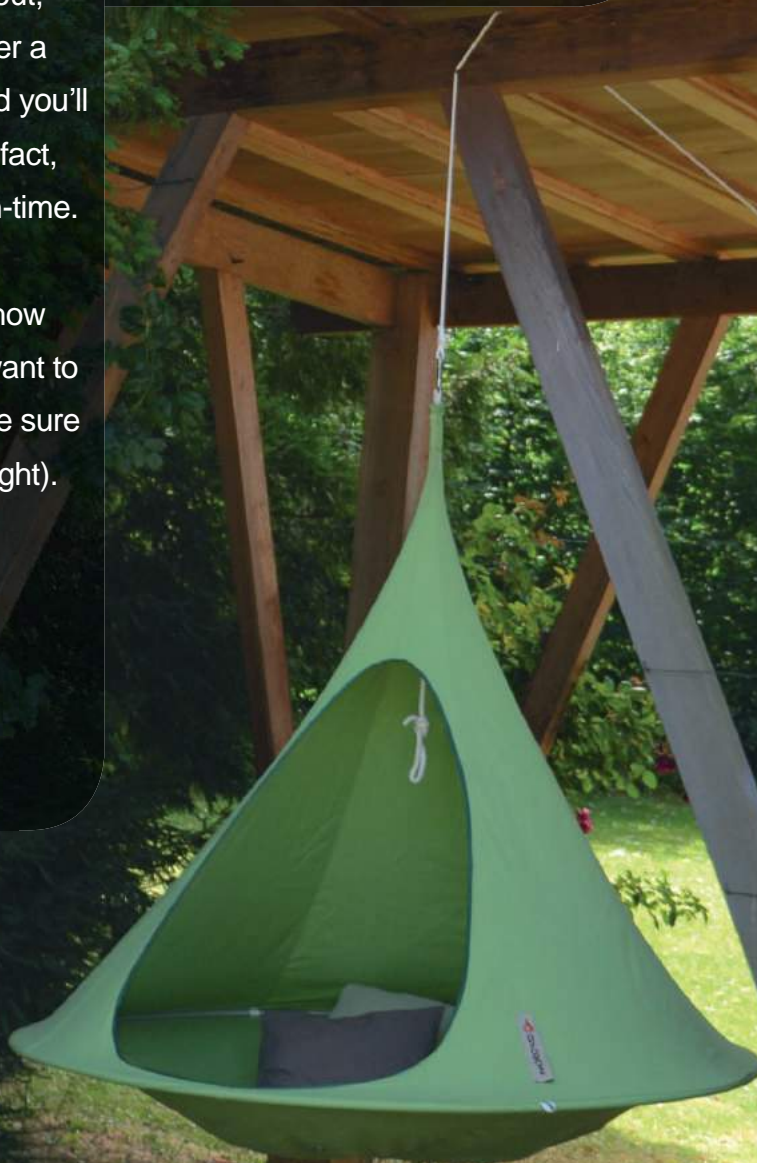

At Ø 1.8 m, Cacoon Double is for two adults stretched out or blissed out! And if the kids must... imagine a joey in a kangaroo's pouch – now see your kids in a Cacoon. Throw in a couple of teddies and... heaven!

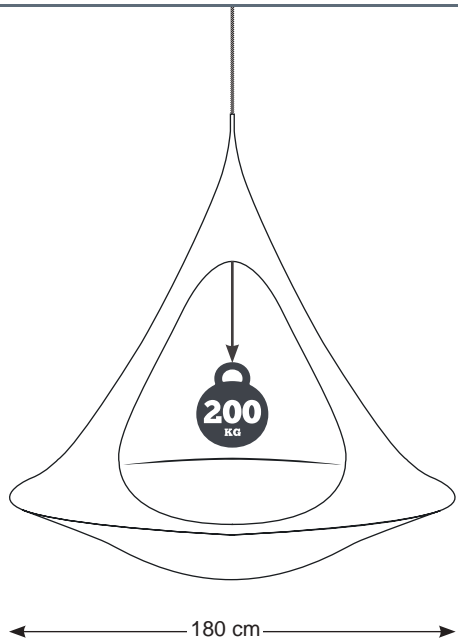

CACCOON DOUBLE

Know someone you'd love to share a Cacoon with? In a double Cacoon you can stretch out, snuggle up close, or just fall back into it after a hard day. There's plenty of room inside and you'll have no shortage of willing companions. In fact, you'll probably be fighting them for Cacoon-time.

If it comfortably holds two adults, imagine how many kids could clamber in. So you may want to hide it when your kids' friends visit (or make sure what you hang it from will support their weight).

It looks great in the house, the garden or anywhere else you can think of. So, even if you're tempted to chill out, go; get up and take it on an adventure.

*CACOON Double
is big enough for two adults
stretched out or blissed out.*

*Cacoon Double,
Orange Mango*

The **CACOON** DOUBLE range:

DW1 • Natural white

DG2 • Leaf green

DM3 • Orange Mango

DT7 • Taupe

DBL8 • Black (*)

DC9 • Camouflage (*)

DLB10 • Turquoise

DF11 • Fuchsia (*)

DA12 • Anthracite

(*) These colours are available until the end of stock

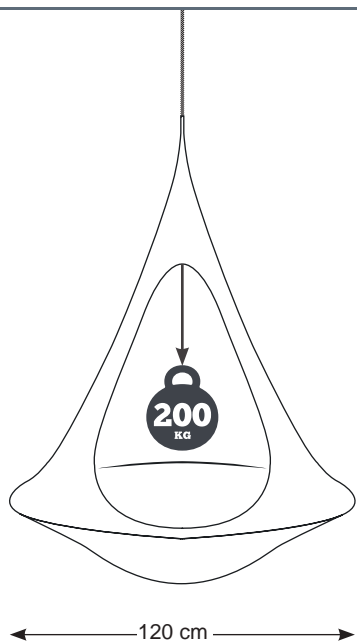

At Ø 1.2 m, our newest Cacoon Bonsai is perfect for your kids. Whether you put it in their bedroom, hang it from a swing frame, or take it with you on a day out, they'll absolutely love it - and you!

CACOON BONSAI

Imagine if you had one of these when you were their age. What a cool place to hang out; they'll never be out of it. Just like its older brothers, the Bonsai is made to the highest standards.

So whether it's a tent, or a Tardis; a den or a tree house; a wigwam or a wendy house, they'll make it their own.

*CACOON Bonsai
is perfect for one or two
kids to play in.*

*Cacoon Bonsai,

Songo means “dream” and encompasses this description in every way. The beautiful organic shape of the twin doors blends subtly with the oval base indulging the dreamer in a truly tranquil environment.

SONGO by CACOON

With the two doors letting the breeze drift through this is the ultimate in cool spots for relaxing and having fun. There are no rules about who when or where. Songo is perfectly at home inside or out. The Songo offers a design point inspired by the St Ives sculptors Babra Hepworth and Henry Moore, Songo is a visual art form to use and enjoy. As well as being so tempting for that delicious chance to sneak away for some time!

125 x 195 cm

Songo
Earth

SONGO by CACOON

As you would expect from the designers and makers of Cacoon the Songo is made to the same exacting standards utilizing the highest grade of materials and fabrics. We use the innovative fabric "Olefin" renowned for its resistance to UV with the ability to reject dirt and water while retaining a natural feel and texture. Songo is social as well as personal holding unto 150 kg of body weight. Songo can also host a small party.

The Lullio was created to embrace your environment, surroundings and friends.

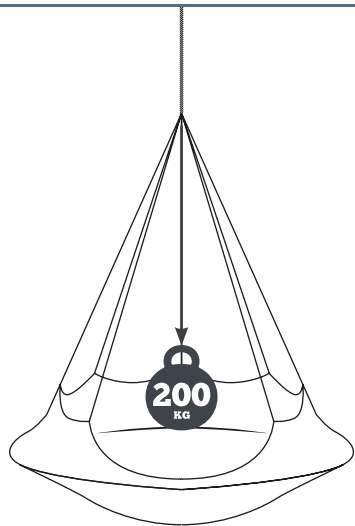

LULLIO SINGLE

by CACOON

Where Cacoon wraps you in your own world Lullio encourages contact and influence from the outside, be it from nature or your family and friends.

Just like a convertible sports car the Lullio gives you a sense of freedom and connection. Lullio is at home in the house, on holiday, at the beach, on the patio, off the boat or playing the part as a Pirate Ship in the back garden. If you have the imagination you can hang out almost anywhere. With the same amazing pack down size as Cacoon this is another truly versatile design ready for epic adventures an amazing den and lasting memories.

150 cm

KAJITO

by CACOON

The Design Brief: A totally new style of Hammock/Deck chair.

Hammocks are great but have a few drawbacks. We have never liked the heavy immovable Hammock frames and we also know from our Cacoons that even a single hanging point for a chair can often be a problem. Deck chairs are great too and the basic design has dominated collapsible frame chairs since John Thomas Moore invented them in 1886. Our only view on this was that the concept could take a bit of spicing up.

“We love a challenge”

Kajito is the designed by our in house team where experience includes many years of involvement in highly technical projects such as race sails for international sailing projects, tensile architectural fabrication and design for world-renowned architects Wilkinson Eyre and Kew Gardens London.

Kajito : Kite : Light weight material with wooden structure used to fly
 Well to be honest you will not literally “take off” in our Kajito, but the floating
 sensation of gentle movement Kajito provides will help your mind
 “take time off” that’s for sure.

KAJITO

by CACOON

Designer comments

“This project has offered the chance to explore folding tensile structures and eventually incorporate the natural shape of leaves and wings for the fabric itself. It’s a great combination of yacht rigging, wooden furniture and fabric engineering.” We showed the prototype at the Chelsea Flower show on the banks of the river Thames in London where it attracted so many people we had to take it off the stand!”

The Result:

From a standing (130 x 20 x 20 cm @ 9.5 Kg)
the Kajito positively leaps into action with
only a 5 second deployment required from
storage mode to such a very classy lounger.

The KAJITO colours:

KW2 Aluminium • Earth and Moon fabrics in the same box

ACCESSORIES

by CACOON

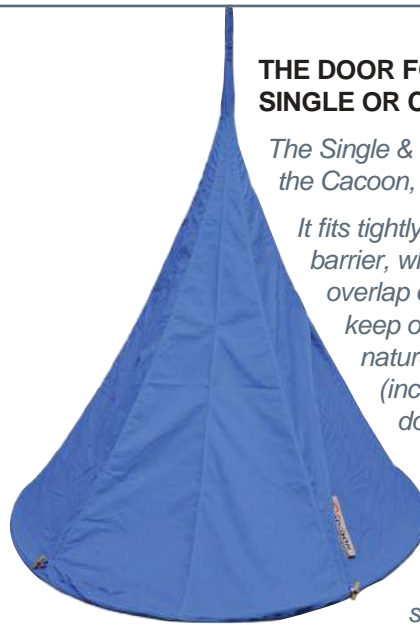

THE BUG NET FOR CACCOON SINGLE OR CACCOON DOUBLE

Keep those nasty, biting, blood suckers at bay.

The Bug Net slips over the top of your Cocoon, falling down over the entrance to keep your Cocoon a bug free space. To keep the Bug Net in place, a length of natural coir rope is sewn into its hem. The weight of the rope keeps the net in place in anything less than a stiff breeze.

And if it's a really windy day? As far as we know, bugs will be blown offcourse anyway - so you're safe.

For:

THE DOOR FOR CACCOON SINGLE OR CACCOON DOUBLE

The Single & Double Door, just like the Cocoon, is simplicity itself.

It fits tightly to create a water barrier, while the generous overlap of canvas will keep out most of what nature can throw at it (including cats and dogs!). For even greater protection the material rolls underneath the bottom of the Cocoon. Just slip it over the top of your Cocoon. The collar holds it in place at the top, with two simple ties at the foot attaching to the two front eyelets on the outside of your Cocoon.

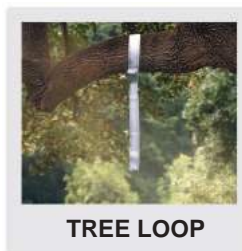

When you're not using it, the cover simply ties to the outside eyelets at the back of your Cocoon. Neatly out of your way.

For:

THE TREE LOOP & EYE BOLD

We also provide hanging options as we love trees and we love cocoon hanging inside houses.

TREE LOOP

EYE BOLD

For all our hanging products !

THE TRIPOD STANDS

Nowhere to hang your Cocoon? No problem. Our cool, stylish Tripod Stands are designed specifically to hold your Cocoon - no matter what its size. These sturdy, powder coated steel or wooden stands will resist pretty much anything nature can throw at them.

INSTRUCTIONS

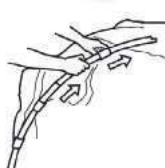

PUTTING YOUR CACOON TOGETHER

Tools required: NONE.

1 Place your Cacoon on the ground with the door spread open.

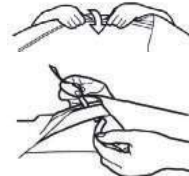

2 Build the inner ring by slotting together the sections piece by piece whilst feeding them through the guide loops on the inside of your Cacoon.

3 Once you've fed the sections through all the loops, complete the rest of the ring. You may need to use a little force to align and slot together the last two sections.

4 Pull your Cacoon over the completed ring - using your hands and fingers to lever the final part of the fabric over the ring (the design of your Cacoon relies on the ring fitting tightly - so be prepared to use a little force).

5 Using reef knots, secure the last parts of the inner ring to the horizontal seam with the ties provided.

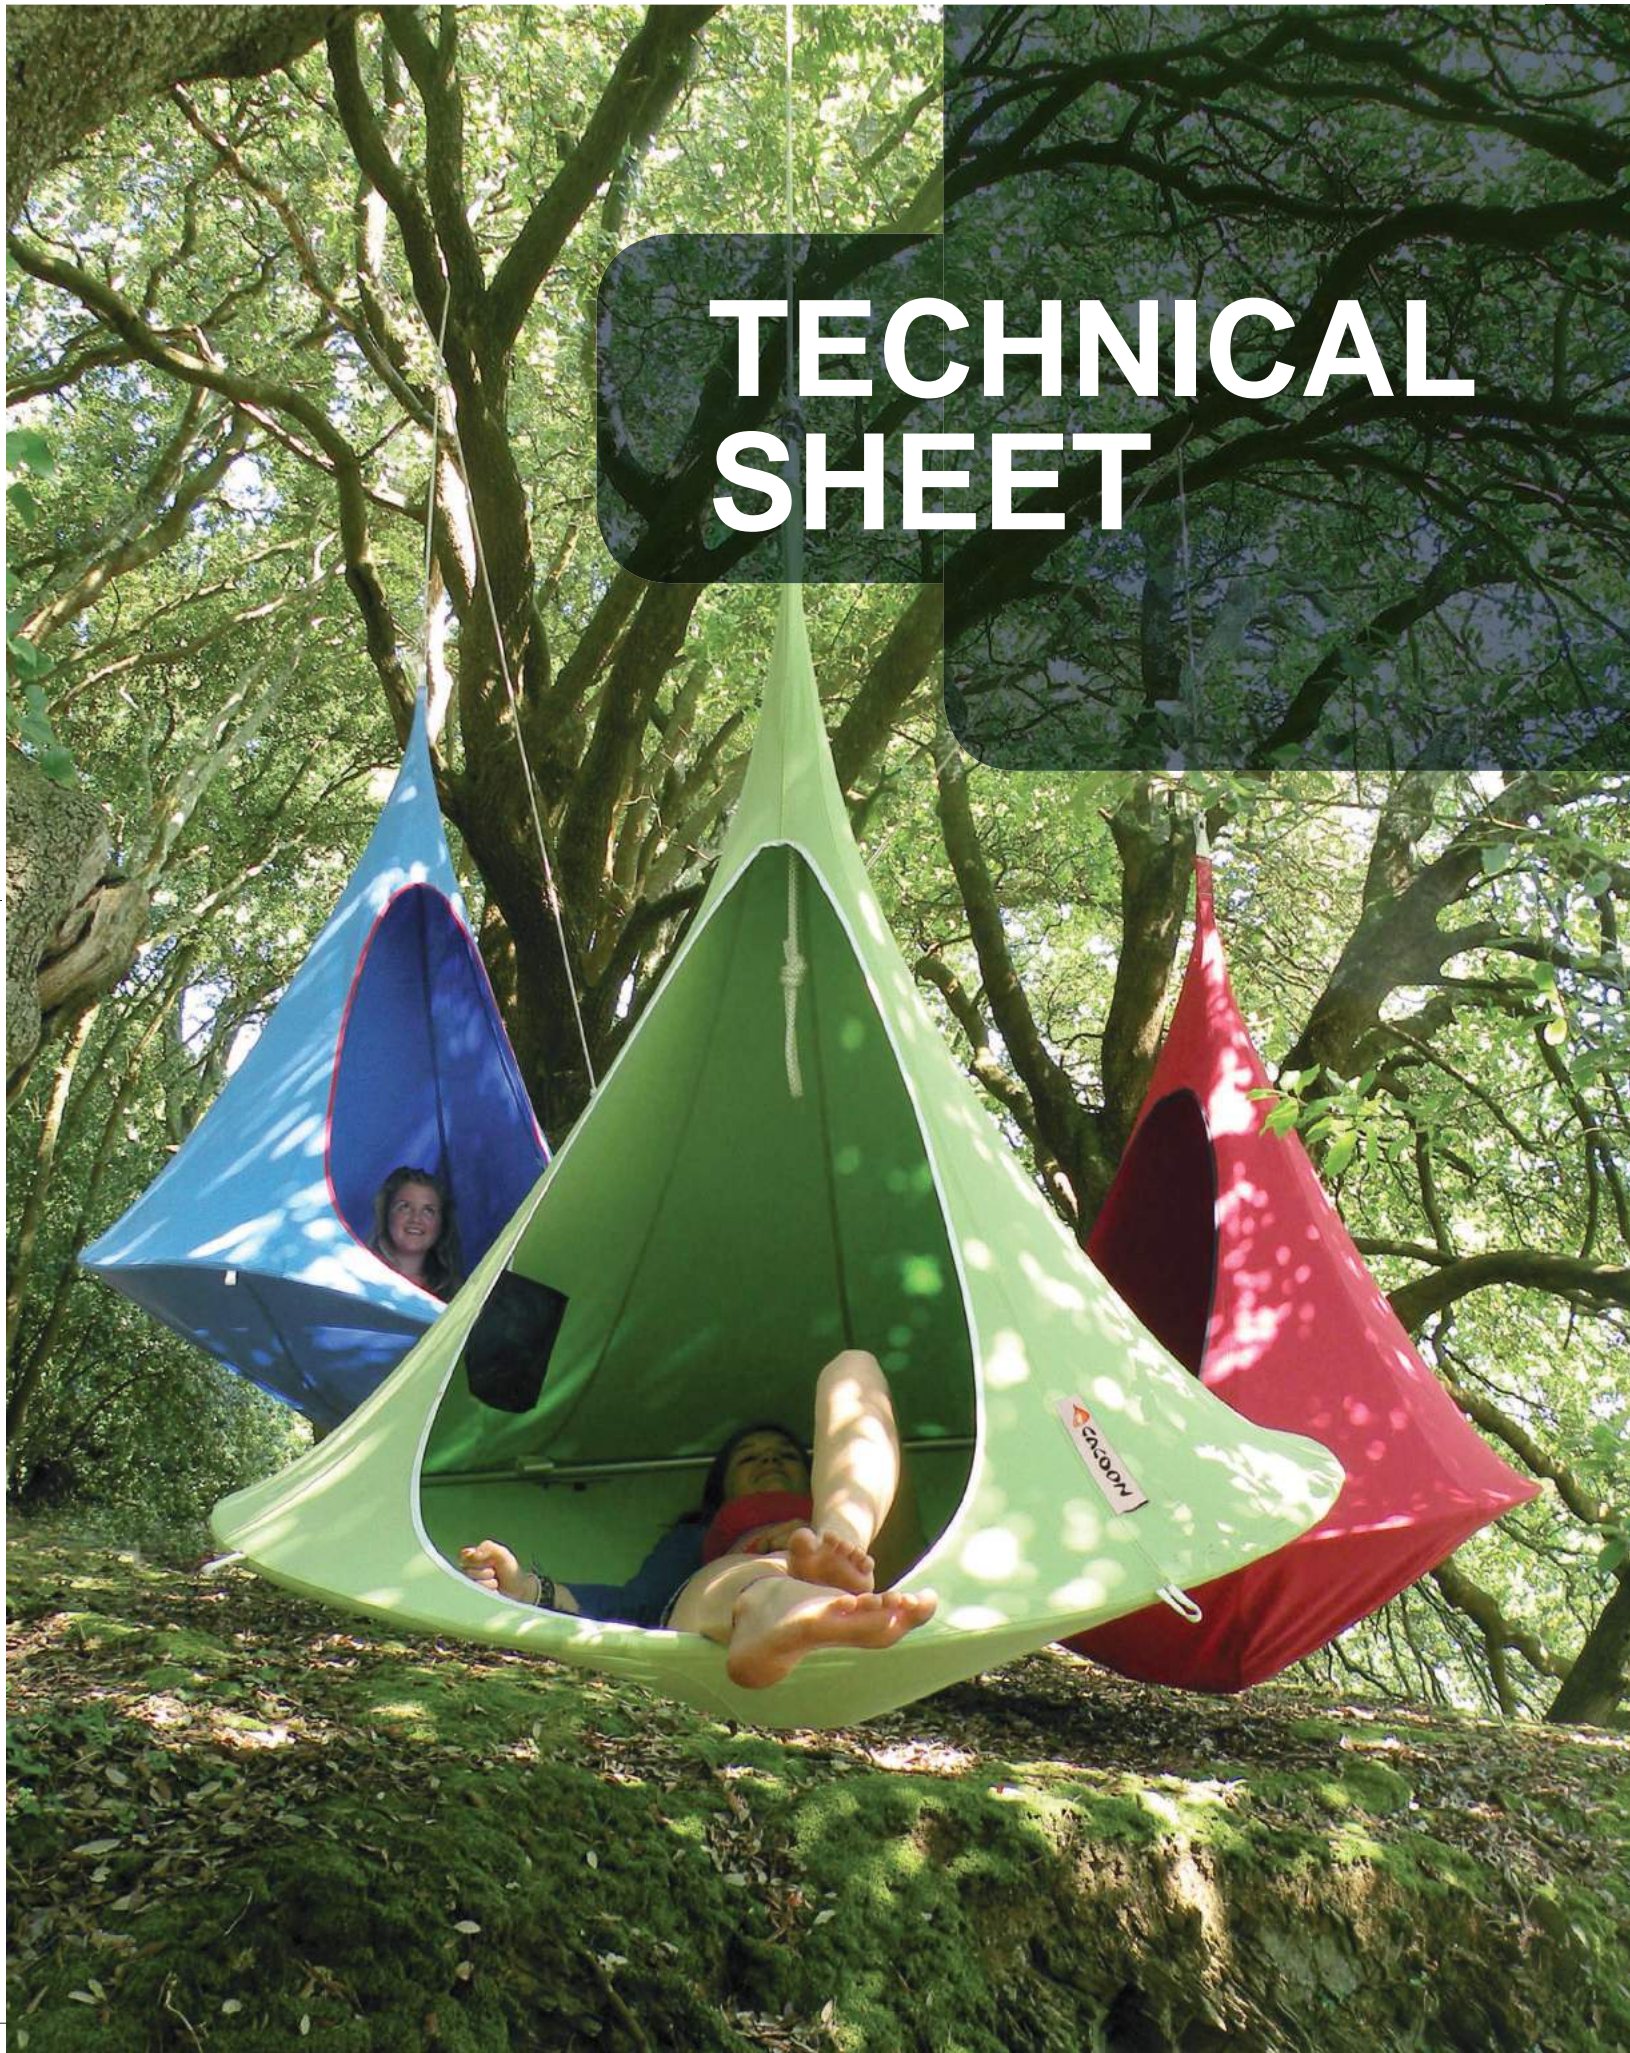

6 Hang your Cacoon - but before you do, **check the branch, beam or bracket is strong enough** to take both your weight and that of any friends who may join you.

7 Enjoy!

You can download a simple, printable page of instructions on the website

www.cacoonworld.com

Disclaimer ASK CONSULT INTERNATIONAL SPRL and all agents and representatives thereof cannot assume responsibility for special, indirect, or consequential damages or contingent liability for use of this product in a manner not expressly intended by the manufacturer. End consumer is ultimately responsible for verifying proper installation according to our guidelines here within. We strongly recommend that you adhere to our hanging height recommendations.

TECHNICAL SHEET

THE LOAD LIMIT OF THIS CACOON IS 200 KG (440 LBS). NEVER EXCEED THIS LIMIT

These instructions are also available in other languages which can be downloaded from our website: www.cacoonworld.com

EVERY TIME YOU USE YOUR CACOON YOU MUST

Always check that your Cacoon and its hanging system are in good condition and show no signs of damage, wear or tear.

Always ensure that you use a suitable knot to tie off your hanging rope and that your chosen hanging point is strong enough to take at least the same weight as you intend to have in the Cacoon.

Never exceed the stated load limit or hang the Cacoon higher than just above ground level (when fully laden).

Never jump into a Cacoon or use it as a trampoline or swing – the Cacoon is designed for gentle play and relaxation.

HOW TO USE YOUR CACOON ?

1 Set the height of the ring off the ground to around that of a typical seat.

2 Sit down into your Cacoon just as you would if sitting down in a normal chair – you may find it helpful to use the internal rope as a handle.

3 Shift your body weight to suit your mood – remember the further back you move in your Cacoon the more reclined it will become.

4 To get out, put both feet firmly on the ground outside of the Cacoon and simply stand up just as you would if you were getting up from a normal chair – you may find it helpful to use the internal rope as a handle to pull up on.

Never use the ring edge as a step to get in or out of a Cacoon.

Never step out of a Cacoon one foot at a time – you will go one way while the Cacoon will go the other.

HOW TO CARE FOR YOUR CACOON ?

Always tether your Cacoon when not in use – this is particularly important in high winds – and ensure that it cannot bang into walls, tree trunks etc as this will damage the fabric and potentially the ring too.

Washing Yes, your Cacoon can be washed in a washing machine! Cold wash. No bleach.

PUT THE RING BACK INTO YOUR CACOON AND HANG DRY.

DON'T DRY WITHOUT THE RING IN PLACE.

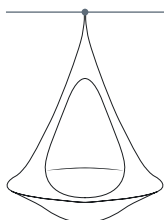

DON'T TUMBLE DRY. And don't even think about getting the iron out; Cacoons don't like irons! Or just simply wash your Cacoon down while it's hanging – use warm, soapy water and wash off with clean water.

WARRANTY

All our Cacoons come with a two years warranty. Proof of purchase required.

Specifications

CACOON SINGLE

PRODUCT SPECIFICATIONS

Fabric : 285 g/m2, 35% coton 65% Polyester, UV50, water repellent, anti-mold and anti bacteria treatment.
