

UNDERQUILT-PONCHO

TWO IN ONE: THERMAL PROTECTION UNDERLAY FOR HAMMOCKS COMBINED WITH A PONCHO

Content: poncho (one size) and thermal protection underlay for hammocks combined, including suspension ropes and hammock straps

The Thermolite® microfibre lining is supremely warm and cosy, soft as down feathers and highly compressible for taking little space when packed. Without a ground pad, it can be used at temperatures as low as zero degrees. In combination with a suitable ground pad, it can withstand temperatures well below freezing.

100% nylon ripstop material

Suspension rope for underquilt function (detachable and continuously adjustable)

Poppers

Packaging

TRANSFORM YOUR UNDERQUILT TO A PONCHO IN JUST FOUR STEPS:

2. Pull over your head

3. Fasten poppers

4. Close zip

MOSKITO-TRAVELLER THERMO XXL

Thermo pocket for ground pad

Hammock can be used on both sides - with or without the net

IMPREGNATED HAMMOCK IN SIZE XXL WITH MOSQUITO NET AND THERMO POCKET

The extra-large ultralight hammock Moskito-Traveller Thermo XXL comes with a practical mosquito net and built-in pocket for a ground pad (ground pad not included).

Both fabric and mosquito net are impregnated with TANATEX insect protection. This impregnation provides lasting protection against flying and crawling insects, which will not even sit on the material or the net.

Despite this the impregnation has been proven to be completely safe for humans. It is also kind to the skin, odourless, heat-resistant and washable (up to fifty washes).

The Moskito-Traveller Thermo XXL is ultralight, extra-large, the pack dimensions are very small, and both sides can be used: with or without the net. But it is also extremely robust and can hold up to 200 kg.

You get in from the side by opening a double zip. The net is kept away from the body using the cord enclosed. Very generous interior thanks to the patented spreader bars (included). 2 drainage ties included. Recommended for persons with a body height of over 1.90 metres.

WING TARP

THE HAMMOCK TARP WITH VARIABLE ALL-ROUND WIND PROTECTION

Wing Tarp is exactly adjusted to the dimensions of ultra-light hammocks. With its variably closable sides, it protects the hammock all round against wind and rain (when not in use, the wind protector can simply be rolled up). So you can use your hammock as an outdoor bed even in bad weather!

It is suitable for many ultra-light hammocks, and for any kind of outdoor camp as a roof to keep off the rain. It can also be used as a lightweight alternative to a tent.

Fastening materials included, together with Y-pegs and adjustable snap hooks. Extremely waterproof. Compact size when packed.

Variable wind protector (can be rolled up)

HAMMOCK FLOOR

THE IDEAL PROTECTION FOR YOUR OUTDOOR EQUIPMENT

Hammock Floor protects your outdoor gear against damp or dirty ground.

Just use the integrated suspension system to hang the Hammock Floor directly below the hammock, or fasten it to the four loops on the ground as an underlay (pegs not included).

The coated, ultra-light ripstop material gives the equipment lying on it effective protection against ground damp and dirt.

Comes with a stowing bag and length-adjustable suspension system. Can be combined with any hammock and suitable for any outdoor camp.

TARP SOCK

THE STOW-AWAY BAG FOR HAMMOCK TARPAULINS

With the Tarp Sock, you can stow away your hammock tarpaulin quickly and easily without having to dismantle it completely. Just roll up the tarp and pull the Tarp Sock over it from both sides, and there you are! When you need the tarpaulin again, just push the Tarp Socks aside.

The Tarp Sock consists of 2 parts. Includes useful packing bag.

Can be combined with hammock tarpaulins with a ridge length of up to 400 cm. Also usable for stowing your ultra-light hammock.

100% breathable mesh material.

TREE HUGGER

EXTENSION AND TREE PROTECTION FOR HAMMOCK SUSPENSION ROPES

The Tree Hugger combines a number of functions in one:

It acts as an extension for hammock suspension ropes. Used in combination with Adventure Rope, it extends the belt that protects the tree.

It also adds a protective tree belt to narrow suspension ropes that could otherwise damage the tree.

Contents: 2 pieces. 25 mm wide band: very kind to trees.
