

LESOVIK

2020

What's your ideal outdoor getaway?

From the moment we made our very first hammock in 2009, we have had the same goal – to get closer to nature in the most pleasant and comfortable way possible.

Developing this unique relationship with nature is simple, light and easy – just pack your Lesovik and hit the trail! Take a break by setting up the hammock between the trees and find the time to admire the beauty of the surroundings or watch the clouds scudding across the sky. You will not only become a guest, but you will also get a chance to enjoy a moment in perfect harmony with nature. In a rhythmic swing your break will become even more relaxing, letting you see and feel more than usual.

Lesovik hammocks are lightweight, simple and easy to use. Thanks to constantly improved technology, they are also very reliable and versatile. You can use them for an afternoon nap, but they will only show their full potential when taken on a strenuous expedition and used as a primary sleeping place or an alternative to tents.

Two trees and one moment is all you need to see the world from an entirely different perspective!

About us

Lesovik is the first Polish manufacturer of a full range of professional hammock equipment.

We produce complete camping setups for hammocking in all conditions from tropical jungles to boreal forests above the Arctic Circle. Hammocks, tarps, mosquito nets, suspension systems and underquilts – all of them tailored for the most demanding user.

To ensure the unique quality, our products are manufactured in Poland and in small batches in order to maintain the highest possible level of control over the whole process – from outlining fabric specifications to branding and packaging the final product.

HAMMOCKS

Lesovik hammocks are the most comfortable way of spending time in nature.

Whether you're setting off on a journey to the end of the world, taking a survival course or just going for a hike – bring along our hammock. It's small, light and incredibly comfortable. Give it a try and it will become your best travel companion in no time!

Even a few minutes in the hammock will let you deepen your relationship with the surrounding nature. You will come closer to it and have a chance to grasp the moment.

DUCH Olive Green

FABRIC	SIZE	WEIGHT	COMPRESSED SIZE	WEIGHT LIMIT	INCLUDES
breathable ripstop nylon	300 × 150 cm	330 g	23 × 8 × 8 cm	250 kg	2 x 5 m Kevlar rope, bishop bag

Our all-time classic model, representing a decade of history.

DUCH is a versatile hammock for all year round use. It combines minimalism, versatility, technical advancement and superb quality. Thanks to its compact size, it fits into any bag. Also, the breathable fabrics will allow for a comfortable rest even in the tropical climates. It offers enough room for two people.

DUCH was awarded in Polish design contests "Śląska Rzecz" organized by Zamek Cieszyn and received the MustHave! Award at Łódź Design Festival.

DUCH Baltic Blue

DRAKA Olive Green

BODY FABRIC	SIZE	TOTAL WEIGHT	PACKED SIZE	WEIGHT LIMIT	INCLUDES
breathable ripstop nylon	330 × 150 cm	760 g	35 × 13 × 13 cm	250 kg	mosquito net, suspension system, organizer, 2x stuff bag

The ultimate solution for hammock camping. It's the one majestic diety that has it all.

The main feature of DRAKA is an integrated, removable mosquito net, opening on both sides with a non-locking zippers. This simply allows to reduce the carry weight and bulk whenever the net is not required. Second great feature is the hammock's symmetrical construction and increased length, meaning that anyone up to 215 cm tall will sleep comfortably in any position.

DRAKA is a complete setup that includes full Dyneema-based suspension system (treestrops, carbiners, slings, ridgeline), an orgnaiser, two stuff sacks and side pullers.

SUL

FABRIC	SIZE	WEIGHT	COMPRESSED SIZE	WEIGHT LIMIT	INCLUDES
breathable ripstop nylon mesh	300 × 145 cm	160 g (300g full setup)	17 × 7 × 7 cm	150 kg	ultralight suspension system

A record-breaking, mind-bending transparent set designed for extreme weight savings, but without compromising comfort or reliability. It's still a full-sized hammock with a reasonable load limit and a knotless, ready to go suspension system.

SUL is meant for people counting and cutting each gram of their gear in order to travel lighter, faster and further. It is incredibly lightweight and small when compression packed, being an absolute record-breaker in its category and without compromising comfort or durability.

Paired with the hammock is SMUK ULTRALIGHT adjustable suspension system with super-strong, hand spliced Dyneema ropes.

TARPS

The key to perfect shelter? Low weight, lots of room and just a few minutes to set up.

Lesovik tarps are minimalistic and intuitive shelter systems that will protect you from adverse conditions. They will give you a roof over your head whenever sleeping in a hammock, on the ground or simply as a central meeting point in the camp.

Our tarps provide protection from the elements and create a roomy space for cooking or organizing your gear.

HEKSA Crocodile Green

FABRIC	SIZE	WEIGHT	COMPRESSED SIZE	ATTACHMENT POINTS	INCLUDES
microripstop nylon	360 × 300 cm	480 g (complete setup)	22 × 10 × 10 cm	6	integrated suspension system

The lightest full-size hammock tarp on the European market.

HEKSA is a hexagonal tarp designed with regard to specific hammock camping requirements. It offers more effective cover area to use and at lower weight than regular square tarps. Catenary cut shape allows for easier, tighter pitch whereas lifted ridge ends work better with hammock suspension system. HEKSA features an integrated suspension and rigging system, allowing for setup using only one hand and without tying any knots.

Crocodile olive is a color of discretion and tranquility – HEKSA will smoothly blend into the surroundings of your forest camp.

GROZA Crocodile Green

FABRIC	SIZE	WEIGHT	COMPRESSED SIZE	ATTACHMENT POINTS	INCLUDES
microripstop nylon	300 × 300 cm	570 g (complete setup)	23 × 10 × 10 cm	19	integrated suspension system

Classic, all-purpose square tarp.

GROZA is not only a record-breaker in its category, but most of all – a fully functional and incredibly easy-to-use tarp. It features 19 attachment points and an integrated suspension and rigging system, allowing for setup using only one hand and without tying any knots.

Crocodile olive is a color of discretion and tranquility – GROZA UL will smoothly blend into the surroundings of your forest camp.

SOLO Crocodile Green

FABRIC	SIZE	WEIGHT	COMPRESSED SIZE	ATTACHMENT POINTS	INCLUDES
microripstop nylon	260 × 260/160 cm (trapeze)	320 g (complete setup)	18 × 8 × 8 cm	10	suspension system

Lighter, faster, further – solo or with a companion.

SOLO is made specifically for sleeping on the ground. It has lower profile and pitching system designed with appreciation for masters of fast and light philosophy – the minimalist backpackers and ultralight thru-hikers. Offers enough space for two people on the overnight summer getaway or for one person with more gear.

Crocodile olive is a color of discretion and tranquility – SOLO will smoothly blend into the surroundings of your forest camp.

ADDITIONAL EQUIPMENT

Whether you are camping in winter or summer, in the boreal forests of the North or dense jungles of the tropics, the modularity of Lesovik systems will let you adjust your shelter gear to match the conditions.

MAGLA Mosquito Net and OTUL Underquilts are examples of equipment that extend the range of use for our hammock systems.

OTUL Underquilt

INSULATION

synthetic – Climashield APEX 133

SIZE

200 × 140 cm

WEIGHT

820 g

PACKED SIZE

approx. 4 l

TEMP. RANGE

from 10°C to -5°C/-10°C

INCLUDES

integrated suspension system

OTUL quilt protects from harsh weather conditions, allowing you to sleep comfortably in the hammock even in winter.

The underquilt creates an insulating layer of warm air around you and adjusts to your body movements thanks to the flexible suspension system. With OTUL, you can get a good night's sleep even when the cold weather strikes. OTUL can be also easily switched into a topquilt mode.

Hydrophobic Climashield APEX as insulation paired with PU-coated ripstop nylon with DWR treatment as outer shell create windproof and water resistant shield.

OTUL Lite Underquilt

INSULATION

synthetic – Climashield APEX 65

SIZE

200 × 100 cm

WEIGHT

440 g

PACKED SIZE

approx. 2,5 l

TEMP. RANGE

from 7°C up

INCLUDES

integrated suspension system

OTUL Lite is a lighter version of our OTUL underquilt, designed for comfortable sleep from mid-spring to early autumn.

With OTUL Lite, you can get a good night's sleep without the need to carry the excess load and weight of a winter quilt.

Climashield APEX as insulation paired with PU-coated ripstop nylon with DWR treatment as outer shell create windproof and water resistant shield.

OTUL Air Down Underquilt

INSULATION

700 FP Polish White Duck Down

SIZE

200 × 100 cm

WEIGHT

340 g

PACKED SIZE

approx. 0,7 l

TEMP. RANGE

from 7°C up

INCLUDES

integrated suspension system

OTUL Air is the lightest European summer hammock quilt. It's manufactured in Poland, with the highest precision and experience available. It's the ultimate solution for warmth and comfort for ultralight hikers and bikepackers, as it allows to extremely limit your pack's weight and volume. If technical details are a thing, we made it from 700 FP Polish White Duck Down and TORAY Airtastic SLF15 DWR fabric. It's just crazy light.

MAGLA Mosquito Net

FABRIC

high-density netting

SIZE

300 × 150 cm

WEIGHT

330 g

COMPRESSED SIZE

26 × 11 × 11 cm

INCLUDES

stuff sack, suspension lines

Multifunctional and lightweight outdoor mosquito net.

MAGLA looks like an envelope turned upside down which makes it a versatile solution not only for outdoor hammocks, but also for camp or hostel beds in the tropical countries or even as a standalone “mesh tent”.

Super dense net in MAGLA (approx. 570 holes per cm²) will keep even the smallest midges outside.

HUBA Gear Shelf

FABRIC	SIZE	WEIGHT	COMPRESSED SIZE	INCLUDES
microripstop nylon	145 × 90 cm	115 g	8 × 7 × 7 cm	stuff sack, adjustable suspension system with hookies

Simple yet effective solution for gear storage– HUBA conveniently keeps your gear out of the dirt or damp and easily within arm’s reach.

HUBA is made of waterproof microripstop nylon to better secure your gear from damp and dew. Elastic edges help with keeping everything in place, whereas adjustable suspension system with quick attachment hooks (hookies) allows for super easy installation iliterally in seconds and without any knots.

HUBA is comaptible with any hammock suspension system.

SUSPENSION SYSTEMS

Lesovik SMUK and NITI suspension systems allow for easy hammock & tarp setup.

Without tying knots, in all conditions, quickly and precisely.

SMUK Hammock Suspension

MATERIALS UHMWPE, aluminum, PE	ADJUSTMENT RANGE 50 - 300 cm	WEIGHT 160 g	PACKED SIZE 4 × 9 × 9 cm	WEIGHT LIMIT 250 kg	INCLUDES 2 x 175 cm straps, 2 x loops, 2 x carabiners, manual
--	--	------------------------	------------------------------------	-------------------------------	---

SMUK Hammock Suspension speeds up hanging a hammock and allows you to easily adjust your setup on the go.

What lies at the heart of the system is a set of adjustable loops made of Dyneema – a solution also known as whoopie slings. With only one move you can make the lines shorter or longer, even with your gloves on. No need to tie any knots! Thanks to the webbing straps wrapped around the tree you will not bring any damage to the bark.

SMUK Ridgeline is an addition for hammock's sag and tension regulation – sold separately (17 g).

SMUK Hammock Ridgeline

MATERIALS
UHMWPE

ADJUSTMENT RANGE
240 - 300 cm

WEIGHT
17 g

PACKED SIZE
2 × 2 × 9 cm

INCLUDES
ridgeline, manual

SMUK Hammock Ridgeline is an addition for hammock's suspension system, a must-have for advanced hammock lover. It allows better sag and tension regulation, providing a consistent lay. It's also a handy way of hanging your essential gear like camping light.

NITI Tarp Suspension

MATERIALS
PE, nylon

RIDGELINE MAX. LENGTH
900 cm

GUYLINE MAX. LENGTH
200 cm

NO. OF GUYLINES
4

INCLUDES
ridgeline, 4 x guylines, 2 x ridgeline tensioners, manual

Universal tarp rigging and adjustment system designed to work with any outdoor tarp that lacks an integrated or a preinstalled suspension system. You'll love it for the possibility to readjust your tarp without untying the guylines.

SPIG / SPIG UL

MATERIAL
aluminum

SIZE - SPIG
180 × 12 mm

WEIGHT - SPIG
12 g

SIZE - SPIG UL
150 × 9 mm

WEIGHT - SPIG UL
7 g

Strong, superlight, reliable tent & tarp pegs.

Both SPIG and SPIG UL pegs are Y-shaped for improved durability and hold even in wet soil,

Each peg has high-visibility features – reflective cord and bright puller, making it easily noticeable even in high grass.
