“
**FEEL-GOOD
PRODUCTS FOR
DREAMERS
WORLDWIDE!**”

WHY WE DO WHAT WE DO!

At TTTM we have declared it our personal challenge to support all dreamers, and those who aspire to become dreamers, in the best possible way - enabling them to discover their fullest potentials by establishing an inspiring and transformative mindset. We strive to make the lives of our dear co-inhabitants on this wonderful planet as easy, adventurous, fun and as comfortable as possible by offering timeless and sustainable solutions with passion for fine details.

HOW WE DO IT!

We are certain that we all can only bring forward our personal best if our actions and interactions are cooperative, honest, fair, fun and sustainable. And so we act. In order to personalize your very own TTTM experience, we design and construct our gear in-house. This way, we can offer you the best products and include the exact features you desire. As we sincerely believe that the best results can only be achieved by deep collaboration of our groups, we welcome and live diversity in our international and multicultural team. This fact, combined with constant product analysis and development in our ongoing utopian search for perfection, keeps us at the forefront of innovation in hammock manufacturing. The entire range of Moon Hammocks is handmade by our team of experienced craftspeople, some of whom have been with us since the beginning. Using only the highest quality and skin-friendly (OEKO-TEX® Standard 100) materials, every one of our products is tested under extreme conditions and passes strict quality control procedures before it is shipped to you. The 10-year manufacturer's warranty covers any defects in workmanship and materials on all Ticket to the Moon products.

GIVING BACK is vitally important to us! Hence, a significant amount of the profits directly go into TTTM's very own Foundation, whose mission is to strengthen the resilience of disadvantaged communities in Indonesia. Read more on the next page.

FAIR TRADE PRODUCTION

Our long-term goal is to raise awareness of larger global challenges such as sustainability and fair production issues. In all our operations we aim to bring advancement to the community while respecting and supporting the local social structures.

ACT LOCAL! The main part of our helpers and materials originate from Indonesia - our beloved nest and home. All our employees are over 18 years of age. Our honest, humane and fair corporate values mean that all staff within the TTTM family enjoy proper working conditions with social security, a pension, and a salary that is far higher than the regional average. A big part of our profit is annually redistributed equally between employees, based on the number of years they have been with us. Furthermore, they can join Yoga, Tai-Chi, Kung-Fu, English, and tailoring courses free of charge, every single week. Over the past years, our staff turnover settled at around 1.5% per year, which clearly underlines that everybody bonds into a unique social tribe, being passionate about our journey to the moon together.

“WE LIVE AND WORK IN BALI, PRODUCED AT OUR HOME”

MINIMIZING OUR CARBON FOOTPRINT

By using locally sourced materials and investing in innovative upcycling methods, we aim to have a minimal impact on the environment. This includes product and packaging design issues, and aspects of local manufacturing. Any spare fabric is turned into eco-friendly products or is recycled into new fabrics.

The ongoing urge to minimize our carbon footprint engendered the motto: “nothing is left to waste because we care.”

PARACHUTE HAMMOCKS

Since 1996, Ticket to the Moon has been the original parachute nylon hammock manufacturer. Designed and created by travellers for travellers, our hammocks are tested in every climate around the world and are equally suitable on a serious adventurer's trip or for daily use.

Once you try a moon hammock, you'll never miss your tent again! Enjoy a comfortable sleep and «off the ground» protection from water, insects and small animals. Ticket to the Moon parachute hammocks have many handy attributes: lightweight yet strong, spacious but portable, set up and takedown less than a minute, rot-resistant, machine washable and fast drying. The elastic and breathable nylon adjusts perfectly to your body contours, allowing for optimal blood circulation and relief.

Hanging a hammock is often allowed where pitching a tent is not. Our hammocks are delivered with stainless steel S-hooks or high-grade aluminium carabiners. Ticket to the Moon hammocks are ideal for every occasion - whether you are travelling, spending a day in the park with friends, or just staying at home. Play, relax, take a nap or sleep all night in your Moon Hammock!

The patented moon-shaped Express Setting Bag ensures that your hammock doesn't touch the ground when installing or packing up. The pouch is also a comfortable neck pillow when travelling, and it can be removed and stuffed with clothes for use as a pillow in your hammock. A side-stuffing pouch lets you keep your gadgets, books or torch at hand, and allows for convenient storage. To personalize your hammock camping adventure, we offer a range of accessories including easy to use suspension systems, tarps, bug nets, insulation and eco-friendly bags.

EXPRESS SETTING BAG

This unique and versatile feature comes together with all our hammocks and adds tremendously to their functionality. It enables you to set up and take down the hammock quickly.

HAMMOCKS OVERVIEW

COMPACT (TMC)

If minimalism and great value is your motto, then the Compact hammock is made for you. This stitchless hammock is durable, comfortable, easy to use and beautiful! It is also the perfect entry-level hammock for young users.

ORIGINAL (TMO)

Our most famous and best-selling hammock. Wide and colourful, it delivers an amazing all night sleep at music festivals, late-night bonfires, in backyards, gardens and deep jungles. Featuring triple stitching, this is a genuinely durable and reliable companion.

KING SIZE (TMK)

An even wider version of the Original Hammock, ideal for taller users or for anyone looking for extra comfort in life. There is enough room for a friend to share that unforgettable sunset with.

MINI (TMMI)

This astonishingly versatile bundle of joy is primarily a great hammock for the first years of life. A gentle swing here and there is all it takes to bring extra peace into parenting. Besides that, however, Additionally, it can work brilliantly to keep your gear off the ground.

HAMMOCKS OVERVIEW

LIGHTEST (TML)

You are an ultra-lightweight enthusiast and/or simply like the idea of a hammock that's so small it will literally fit into your pocket? This award-winning hammock weighing only 228g is definitely the perfect choice for your adventures! **MORE INFO → PAGE 17**

PRO (TMPRO)

Our newest team member is designed as an easy-to-use and always-ready solution for sleeping outdoors with insect protection. The integrated ridgeline and a versatile organiser make it a true-allrounder! **MORE INFO → PAGE 18**

HONEYMOON (TMHM)

The Honeymoon Hammock is the ultimate option for those who aim for maximum comfort. It is much more spacious than a King Size, yet easier to install than our Mammock. You might even consider adding a mattress inside and get surprised by this sensation.

MAMMOCK (TMM)

The Mammock is our biggest hammock - it was designed with parties and fun in mind. The center of attention in any garden, event or school, the Mammock easily accommodates you and your friends with room for a chat, a laugh or even a dance!

HAMMOCK SLEEVE (TMHS)

Protects your hammock like a second skin. An essential optional accessory if you plan to leave it in the sun for an extended time. It keeps your hammock clean and stops the wind from flapping it around when not in use.

FOUNDATION

In 2006, Charly - the founder of TTTM, as well as other travellers, discovered the indigenous Kodi Tribe in Mandorak in the north-west of the remote Indonesian island of Sumba, and instantly fell in love! With no access to water or electricity, the tribespeople were struggling to survive on subsistence agriculture and fishing. Therefore, we teamed up with the locals to improve their living conditions and build resilience while embracing the ancestral culture. The idea was to provide aid in education, sustainable economic development, renewable electricity and health care.

14 active years later we proudly look back on the fruits of this sustained partnership: malaria victims were drastically reduced by providing mosquito nets, screenings and medicine; a photovoltaic-powered water well for clean water access was dug; new roads were built to facilitate trade and to bridge the gap between the Kodi and other tribes; a school was built in the style of a traditional Kodi house where pupils are taught both their own as well as Indonesian language; to balance the enhancements in living

standards with the preservation of local culture, flora & fauna, we provided materials and training, for example, to curb the common practice of bomb fishing, to develop a waste management plan, and to perpetuate the rich ancestral traditions like unique handicraft work, horse games, etc. that are threatened by modernity. Responding to a recent change in Indonesian legislation that does not allow our foundation to engage directly in educational and medical topics, we now focus primarily on supporting the education of some of the children indirectly - by buying school uniforms, pencils, books and sports equipment. Besides that, we started an ecotourism project and are in the process of launching a project to further process the traditional local cashew nut cash crop to generate higher incomes in the village. We are more than happy to have around 30 highly motivated helpers from this Sumbanese tribe in our manufactory today. Furthermore, we are currently setting up a volcano camp in Bali that will be presented on the next page.

“

The TTTM foundation has been supporting me for many years now. Thanks to them I was able to go to university and collect a lot of information from other parts of Indonesia and the world. Today I am back in my village and am the leader of the cashew farmer's group. By forming this association, we secure higher incomes for our farmers.

VOLCANO CAMP

We love celebrating our Indonesian roots, and we feel obligated to lend a helping hand when necessary. Bali and the communities surrounding Mount Agung have been feeling the impacts of several volcanic eruptions over the last two years. These natural disasters have prompted evacuations and damaged surrounding areas. Many of Bali's residents and small businesses have been disrupted as a result. These persevering and unwavering people deserve relief, and we believe our special projects are just the ticket.

TTTM AGUNG FOUNDATION AND ECO LODGE

Welcome to the TTTM Lodge – our response to this growing problem and a great way to energise the Balinese community. We're sponsoring a number of exciting recreational activities meant with widespread appeal. Mountain biking, downhill biking, rock climbing, volcanic

hiking, and pinewood-forest exploration are just some of the thrilling adventures we offer.

PUBLIC SPACES AND FRIENDLY FACES

We've also created a public campground – the perfect place for visitors and locals alike to meet and mingle. A community is nothing if not inclusive and welcoming, and our mission is to spread positive vibes whenever possible. When night falls, a campfire brings everyone together under the stars with a fantastic view of the city. Supporting the local area financially is key. Reinvigorating the spirit that makes Bali and the Agung region so special is equally important.

After an action-packed day of exploring and making memories, travellers can kick back under our gazebos. We've outfitted these areas with four hammocks apiece. These are perfect places to grab some rest. Visitors can rest assured knowing we've provided every amenity needed for an unforgettable excursion.

“We want to pour every ounce of passion into the community – just like we do into our products. A significant portion of our earnings goes directly to our Foundation. With the support of customers worldwide, we can help rebuild the region that has inspired us so greatly from day one.”
